

State aid: Commission approves €625 million Italian scheme to support tour operators and travel agencies affected by coronavirus outbreak

Brussels, 3 December 2020

The European Commission has approved a €625 million Italian scheme to support tour operators and travel agencies in Italy affected by the coronavirus outbreak. The scheme was approved under the State aid [Temporary Framework](#).

Executive Vice-President Margrethe **Vestager**, in charge of competition policy, said: *"The Italian tourism sector has been hit hard by the economic consequences of the coronavirus outbreak. This €625 million Italian measure will help companies active in the tourism sector tackle the liquidity issues they are facing. We will continue working closely with Member States to ensure that national support measures can be put in place in a coordinated and effective way, in line with EU rules."*

The Italian measure

Italy notified to the Commission, under the State aid [Temporary Framework](#), a scheme consisting in direct grants equal to a percentage (between 5% and 20%) of the difference between (i) the amounts of turnover and costs registered from 23 February 2020 to 31 July 2020 and (ii) the amount of turnover and costs for the corresponding period of 2019.

The aim of the scheme is to mitigate the impact of the coronavirus outbreak for tour operators and travel agencies, which were limited or forbidden to carry out their activities due to the exceptional measures taken by the Italian government to limit the spread of the coronavirus.

The Commission found that the scheme notified by Italy is in line with the conditions set out in the Temporary Framework. In particular, the aid (i) will not exceed €800,000 per company; and (ii) will be granted no later than 30 June 2021.

The Commission concluded that the Italian measure will contribute to managing the economic impact of the coronavirus in the tourism sector in Italy. It is necessary, appropriate and proportionate to remedy a serious disturbance in the economy of a Member State, in line with Article 107(3)(b) TFEU and the conditions set out in the Temporary Framework.

On this basis, the Commission approved the aid measure under EU State aid rules.

Background

The Commission has adopted a [Temporary Framework](#) to enable Member States to use the full flexibility foreseen under State aid rules to support the economy in the context of the coronavirus outbreak. The Temporary Framework, as amended on [3 April](#), [8 May](#), [29 June](#) and [13 October](#) 2020, provides for the following types of aid, which can be granted by Member States:

(i) **Direct grants, equity injections, selective tax advantages and advance payments** of up to €100,000 to a company active in the primary agricultural sector, €120,000 to a company active in the fishery and aquaculture sector and €800,000 to a company active in all other sectors to address its urgent liquidity needs. Member States can also give, up to the nominal value of €800,000 per company zero-interest loans or guarantees on loans covering 100% of the risk, except in the primary agriculture sector and in the fishery and aquaculture sector, where the limits of €100,000 and €120,000 per company respectively, apply.

(ii) **State guarantees for loans taken by companies** to ensure banks keep providing loans to the customers who need them. These state guarantees can cover up to 90% of risk on loans to help businesses cover immediate working capital and investment needs.

(iii) **Subsidised public loans to companies (senior and subordinated debt)** with favourable interest rates to companies. These loans can help businesses cover immediate working capital and investment needs.

(iv) **Safeguards for banks that channel State aid to the real economy** that such aid is considered as direct aid to the banks' customers, not to the banks themselves, and gives guidance

on how to ensure minimal distortion of competition between banks.

(v) **Public short-term export credit insurance** for all countries, without the need for the Member State in question to demonstrate that the respective country is temporarily “non-marketable”.

(vi) **Support for coronavirus related research and development (R&D)** to address the current health crisis in the form of direct grants, repayable advances or tax advantages. A bonus may be granted for cross-border cooperation projects between Member States.

(vii) **Support for the construction and upscaling of testing facilities** to develop and test products (including vaccines, ventilators and protective clothing) useful to tackle the coronavirus outbreak, up to first industrial deployment. This can take the form of direct grants, tax advantages, repayable advances and no-loss guarantees. Companies may benefit from a bonus when their investment is supported by more than one Member State and when the investment is concluded within two months after the granting of the aid.

(viii) **Support for the production of products relevant to tackle the coronavirus outbreak** in the form of direct grants, tax advantages, repayable advances and no-loss guarantees. Companies may benefit from a bonus when their investment is supported by more than one Member State and when the investment is concluded within two months after the granting of the aid.

(ix) **Targeted support in the form of deferral of tax payments and/or suspensions of social security contributions** for those sectors, regions or for types of companies that are hit the hardest by the outbreak.

(x) **Targeted support in the form of wage subsidies for employees** for those companies in sectors or regions that have suffered most from the coronavirus outbreak, and would otherwise have had to lay off personnel.

(xi) **Targeted recapitalisation aid** to non-financial companies, if no other appropriate solution is available. Safeguards are in place to avoid undue distortions of competition in the Single Market: conditions on the necessity, appropriateness and size of intervention; conditions on the State's entry in the capital of companies and remuneration; conditions regarding the exit of the State from the capital of the companies concerned; conditions regarding governance including dividend ban and remuneration caps for senior management; prohibition of cross-subsidisation and acquisition ban and additional measures to limit competition distortions; transparency and reporting requirements.

(xii) **Support for uncovered fixed costs** for companies facing a decline in turnover during the eligible period of at least 30% compared to the same period of 2019 in the context of the coronavirus outbreak. The support will contribute to a part of the beneficiaries' fixed costs that are not covered by their revenues, up to a maximum amount of €3 million per undertaking.

The Temporary Framework enables Member States to combine all support measures with each other, except for loans and guarantees for the same loan and exceeding the thresholds foreseen by the Temporary Framework. It also enables Member States to combine all support measures granted under the Temporary Framework with existing possibilities to grant de minimis to a company of up to €25,000 over three fiscal years for companies active in the primary agricultural sector, €30,000 over three fiscal years for companies active in the fishery and aquaculture sector and €200,000 over three fiscal years for companies active in all other sectors. At the same time, Member States have to commit to avoid undue cumulation of support measures for the same companies to limit support to meet their actual needs.

Furthermore, the Temporary Framework complements the many other possibilities already available to Member States to mitigate the socio-economic impact of the coronavirus outbreak, in line with EU State aid rules. On 13 March 2020, the Commission adopted a [Communication on a Coordinated economic response to the COVID-19 outbreak](#) setting out these possibilities. For example, Member States can make generally applicable changes in favour of businesses (e.g. deferring taxes, or subsidising short-time work across all sectors), which fall outside State Aid rules. They can also grant compensation to companies for damage suffered due to and directly caused by the coronavirus outbreak.

The Temporary Framework will be in place until the end of June 2021. As solvency issues may materialise only at a later stage as this crisis evolves, for recapitalisation measures only the Commission has extended this period until the end of September 2021. With a view to ensuring legal certainty, the Commission will assess before those dates if it needs to be extended.

The non-confidential version of the decision will be made available under the case number SA.59755 in the [State aid register](#) on the Commission's [competition](#) website once any confidentiality issues have been resolved. New publications of State aid decisions on the internet and in the Official Journal are listed in the [State Aid Weekly e-News](#).

More information on the Temporary Framework and other action the Commission has taken to address the economic impact of the coronavirus pandemic can be found [here](#).
